Events Module User Stories
Kompot Management System

Overview

Event management, including creation, viewing, and organizing activities.

User Stories

E1: View Events List

As a user, I want to view the list of events to plan my activities.
   Acceptance Criteria:

- AC1: User sees the events table after logging in

- AC2: Table contains columns: Name, Code, Type, Format, Start Date, Registrations

- AC3: Empty state "No events yet" is displayed correctly

- AC4: Events are displayed in the table when present

E2: Create Event

As a user, I want to create new events to plan activities.
   Acceptance Criteria:

- AC1: User can open the event creation form

- AC2: Mandatory fields: Name*, Type*, Format*, Start Date*

- AC3: Can specify End Date

- AC4: Ability to select event type (e.g., Webinar)

- AC5: Can choose format (Online/Offline)

- AC6: Option to add Meeting URL for online events

- AC7: Optional Max Attendees field

- AC8: Can add event description

- AC9: "Create Event" button is active after filling mandatory fields

E3: Edit Event

As a user, I want to edit created events.
   Acceptance Criteria:

- AC1: Ability to edit existing events

- AC2: All fields available for modification

- AC3: Changes are saved correctly

E4: Filtering and Searching Events

As a user, I want to work conveniently with the event list.
Acceptance Criteria:

- AC1: Ability to sort by columns

- AC2: Search/filter events by various parameters
